From the Sheffield star comes this story. "Why underwear is important!

A couple who drove their car to the mall had their car break down. The man told his wife to go shop and he would see to repairing the car. The wife returned later to see a small group of people near the car, On closer inspection she saw a pair of male legs protruding from under the chassis. Although the man was wearing shorts his lack of underwear turned his private parts into glaringly public ones. Unable to stand the embarrassment she dutifully stepped forward quickly put her hand up his shorts and tucked everything back into place. She took a deep breath and stood up boldly to face the crowd. She looked across the bonnet and found herself staring at her husband who had been standing idle by. The mechanic however had to have three stitches in his forehead.

I hope this news letter brings us closer. This is your aerie your auxiliary {OUR FRATERNITY} We are family. Together we succeed!
